

## ***Violet Transmuting Flame Essential Oil Blend***

As the other Mountain Sage chakra-accessing blends. The Violet Transmuting Flame essential oil blend creates a vibration throughout the energy centers of the body. The Violet Flame is Spiritual Alchemy in action. Its purpose is to TRANSMUTE denser feelings, actions, deeds, karma, etc. into a higher vibrational frequency, which helps prepare us for our Ascension. Ascension means becoming a Divine Human, also known as a Christed Being - a level of Consciousness obtainable by any person. You may use the Violet Flame in perfect harmony with any belief system, religion, or practice. It is a neutral tool with absolutely no conditions attached to it.

**Violet Transmuting Flame essential oil blend contains 3 essential oils: Violet Leaf Absolute, Sandalwood, & Lavender. It also contains crushed amethyst & tourmaline crystals & dried lavender. These were blended in jojoba base oil.** Because of the presence of the lavender & the crushed crystals, it will appear that the oil blend contains impurities, but these additions were intended to add to the therapeutic aspects of the oil blend to, vibrationally, access your energy centers to assist you in your own transformational processes. The properties of the oils & crystals help with the transformational process & are described in the next paragraphs.

**Violet Leaf Absolute** invokes a calming, beautiful & gentle response - ideal for meditation, & restoring a positive attitude to life in general. Many references call violet leaf absolute an "oil of springtime" -- for creating new beginnings & new growth. Violet leaf is said to support emotions and the heart -- to soothe both nostalgia & obsession. It has also been said that it helps to overcome fears, shyness, & promote confidence & self-esteem. When used on a regular basis Violet Leaf Absolute will encourage a positive vision for the fulfillment of your personal & professional goals. It is a brilliant oil to diffuse, while working or involved in a creative project. Violet Leaf's mossy aroma is unlike that of the flower. Violet accesses both the crown & throat chakras.

The Chinese, Ayurvedic & Tibetan medicine regard **Sandalwood** essential oil highly for its therapeutic effects as well as its ability at being able to centre the mind in

meditative yoga practices. It is also great as a tonic for a hyper active mind & is considered to be an anti-depressant as it can help to relieve hot, agitated emotional states & relieving people from over thinking & worry. Sandalwood accesses the root chakra to ground us.

**Lavender** essential oil strengthens the nervous system, clears thinking, dissipates fear, reduces worry, & balances extremes of emotion to draw one toward emotional equilibrium. It also accesses the solar plexus area to help us tap into our "gut" feelings & self worth. **Dried lavender** was included in the blend from my own inner guidance.

**Tourmaline** has become a focus of research in universities & research centers worldwide. The reason -- tourmaline is the only mineral to show permanent electricity on the earth & is also a natural source of negative ions & far infrared rays. The tourmaline used in this formula relate to creativity & to conceiving of the "new" while allowing one to maintain the connection between the self & "All That Is". It aligns the energy centers & meridians of the physical body to the optimum energy centers & meridians of the ethereal body. It also stimulates the crown chakra & the heart chakra, bringing forth a synthesis of love & spirituality, while enhancing the higher aspects of the state of love. It promotes peace & joy during periods of growth & changes -- the changes encountered when being guided toward enlightenment.

**Amethyst** is a "stone of spirituality & contentment". It facilitates transmutation of lower energies into the higher frequencies of both the spiritual & ethereal levels. It is representative of the principles of complete metamorphosis. It is also a "stone of meditation", being excellent in conducting energy of calm & peacefulness to help one both enter & maintain the state. It opens & activates the crown chakra.

**For best meditation results**, place the oil blend directly beneath your nose. If skin irritation occurs, dilute further in any additional base oil (more jojoba, grapeseed, etc.). Discontinue use if irritation persists. Oils may also be added to a diffuser, bath, or for general massage when further diluted.

**Violet Transmuting Flame Blend 0.125 oz. -- \$9.95 + Tax**
